

*Modus*

## **Modelling Urban Space**

**About the emergence of complex forms  
and multi-scale patterns**

*Organised by P. Frankhauser, C. Tannier and I. Thomas*

*Paris, April 27, 2006*

## ***some conclusions...***

**spatial structure**

**fractal pattern properties**

**macro-scale**

**fractal pattern modeling**

**urban pattern formation**

**behaviour**

**computer simulation modeling –  
artificial intelligence – GIS**

**micro-scale**

**mathematical modeling  
(economic approach)**

**some conclusions...**
